

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

August 16 through 31, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16 through 31, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Gregoria Garcia (for projects in Northern California)
Becky Frank (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Ms. Terry Roberts
Director, State Clearinghouse
Office of Governor Gray Davis
Planning and Research
1400 Tenth Street
Sacramento, CA 95814

Dear Ms. Roberts:

The California Department of Transportation (Department) hereby submits this notice for Intergovernmental Review (IGR) process purposes for projects in the 2002 Federal Statewide Transportation Improvement Program (FSTIP). These projects are referenced in the Federal Transportation Programming documents adopted by the Metropolitan Planning Organizations (MPOs) shown on the attached list.

If you have any questions or would like to obtain copies of these documents, please contact Kris Balaji, Chief, Office of Federal Transportation Management Program, at (916) 654-2983.

Sincerely,

Original Signed By

JIM NICHOLAS
Chief
Division of Transportation Programming

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of August 16-31, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

DATE: AUGUST 12, 2002
TO: ALL CEQA LEAD AGENCIES
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE
RE: CONFIRMATION OF RECEIPT FOR NOTICES OF DETERMINATION

We regret to inform you that the State Clearinghouse will no longer be able to honor requests for written confirmation of the posting of a Notice of Determination (NOD) or Notice of Exemption (NOE) with the Governor's Office of Planning and Research (OPR). In the past, and as a courtesy, we were able to comply with requests for written confirmation. However, due to recent budget cuts and an increasing volume of special requests, we can no longer provide such confirmation, either by mail or by fax.

Sections 15075 and 15094 of the CEQA Guidelines spell out the responsibility of the State Clearinghouse to post NODs. Section 15062 (c) of the Guidelines spells out the responsibility of the SCH to post NOEs. We realize the importance of timely posting because this begins a statute of limitations on court challenges. OPR will continue to post NODs and NOEs in a timely manner and enter the notice information in our online CEQAnet database.

If you fax a NOD or NOE to the State Clearinghouse, please retain the fax confirmation for your records. If you file a NOD or NOE with us in person, please provide a second copy of the document and we will at that time be happy to date stamp and return it to you immediately. If you mail a NOD or NOE to us, you may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation of receipt, or obtain written confirmation of posting by printing a report from the CEQAnet database at www.ceqanet.ca.gov.

We apologize for any inconvenience this may cause and will continue to provide the best possible service to the public within our means.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Friday, August 16, 2002</u>			
2001101059	Seaside Golf Course Resort Seaside, City of Seaside--Monterey Subdivision of five parcels for development of resort hotel and bungalows with total of 330 guest units, restaurant, and conference facilities, 170 timeshare units, and a 125 lot residential subdivision within existing maintenance facility.	EIR	09/30/2002
2002051143	Riverside County General Plan Riverside County --Riverside The proposed General Plan is an attempt to promote a more focused and balanced pattern of growth that accommodates the demand for housing, employment opportunities, and public facilities and services while minimizing the impacts of increasing urban development. The proposed land uses include four basic components, which are Rural, Agriculture, Open Space, and Community Development. Land uses are further divided into the 19 Area Plans, March Air Reserve Base, and those areas within the County territory not part of an Area Plan. Detailed depictions of land use within the County as a whole and the various Area Plans can be viewed at http://www.rcip.org . In addition to the proposed General Plan, the proposed project includes an amendment of Riverside County Land Use Ordinance No. 348. The amending of this ordinance will revise the map of County Zoning Districts boundaries to correspond with the boundaries of the proposed Area Plans. The new Zoning District map will supersede the boundaries of existing Zoning Districts within Riverside County. The County's action will be limited to the reorganization of Zoning Districts boundaries and will not change the zoning for any parcel as it currently exists.	EIR	09/30/2002
2002052071	Globe Lane Housing Project San Jose, City of San Jose--Santa Clara The proposed project is an amendment to the San Jose 2020 General Plan. The amendment will change the land use designation on the approximately 29.5-acre site from Combined Industrial/Commercial, Heavy Industrial, and Single-Family (8-16) DU/AC) to High Density Housing (25-50 DU/AC). The proposed General Plan Amendment would allow development of up to 1,475 housing units on the site. No specific development is proposed at this time.	EIR	09/30/2002
2002072010	San Jose Flea Market General Plan Amendment San Jose, City of San Jose--Santa Clara General Plan Amendment from Combined Industrial Commercial and Light Industrial to: North Side of Berryessa Road (58.0 acres): Transit corridor residential (20+ du/ac) on 43.20 acres; medium density residential (8-16 du/ac) on 8.00 acres; public park/open space on 6.80 acres. South Side of Berryessa Road (62.2 acres): Transit corridor residential (20+du/ac) on 26.20 acres; combined industrial/commercial on 20.00 acres; and public park/open space on 16.00 acres.	EIR	09/30/2002

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Friday, August 16, 2002</u>			
2002032162	Pacifica State Beach Master Plan for Public Improvements Pacifica, City of Pacifica--San Mateo City of Pacifica proposes to implement parking, circulation and restroom improvements, an ADA accessible coastal trail, restore the back beach and dunes, tidal riverine wetlands at the mouth of San Pedro Creek and constructed wetlands for storm water treatment and a vegetated filter strip/landscaping along Highway 1. The beach/dune restoration and creek mouth restoration will provide increased shoreline protection from wave runup and flood conveyance, respectively. Class 1 bike trails would extend southeast and south along San Pedro Terrace Road and to the ridge above Pedro Point.	FIN	
2001111046	Construction and Expansion of Mead Elementary School San Diego Unified School District San Diego--San Diego Alternative Site A will involve the acquisition of up to 18 surrounding residential lots in order to accommodate the reconstruction and expansion of the Mead Elementary School. Alternative Site A acquisitions will affect approximately 14 single-family and 8 multi-family dwelling units on 2.6 acres. Alternative Site B will involve the construction of a new Mead Elementary School on the adjacent 7.2 acres just west and south of Chollas Elementary School. Approximately 6.33 acres is District-owned property; the remaining property (0.87 acre) will be acquired through vacation of a portion of 45th Street between Market Street and the school site. Under this alternative, Chollas Elementary will accommodate up to 550 students (grades K-5) and the new Mead Elementary School will accommodate up to 450 students (grades K-5). There will be capacity to add an additional 100 students at each school for a maximum capacity of 1,200 students at the site.	NOP	09/16/2002
2002081079	Pio Pico School Playground Expansion Los Angeles Unified School District Los Angeles, City of--Los Angeles LAUSD proposes to expand the existing playground at Pio Pico School by adding an approximate 1.24 acre area of land to the existing school. To accommodate the playground, existing residential buildings on five properties would be removed.	NOP	09/16/2002
2002082057	West Roseville Specific Plan/Sphere of Influence and Annexation Project and Mou Area Sphere of Influence Amendment Roseville, City of Roseville--Placer The EIR will analyze environmental impacts associated with the construction and operation of the West Roseville Specific Plan. The specific plan will include residential, office, commercial, industrial, educational, open space and recreational land uses. The proposed project will also include a sphere of influence amendment and annexation of land into the City of Roseville.	NOP	09/16/2002
2001032031	New Single-Family Residence-Gypsy Hill Pacifica, City of Pacifica--San Mateo Construction of a two story single-family residence, totaling approximately 4,797 square feet of living area, exclusive of a 832 square foot attached two-car garage on a vacant site. Project includes improving Gypsy Hill Road, extending from Sharp Park Road to the subject site, with an all weather surface, a width no less than 20-feet. Project requires rezoning from R-1/B-10, single family residential	Neg	09/16/2002

2000091010	Address Implementation of the Creekside Village Specific Plan Murrieta, City of Murrieta--Riverside The project proposes a maximum of 780 residential units of 145.1 acres of land along both sides of Warm Springs Creek. The Base Plan of the project would include 500 single family lots, 19.3 acres of open space, a 10-acre elementary school site, a 4.8-acre "Village Green" park and amphitheater, 6.7 acres for slopes and detention basins, and 6.5 acre of roads.	NOD	
2000129017	Sunrise Power Project Energy Commission Bakersfield--Kern The proposed modification will allow for flexible emission limits of criteria air pollutants (i.e., particulate matter, sulfur/nitrogen oxides, volatile organic compounds, and carbon monoxide) on a quarterly basis during 2002/2003. No changes are proposed for daily or annual emission limits. This request will allow the power plant to respond to anticipated surges in peak-period power demands.	NOD	
2001121044	14th Street/Wilson Creek Crossing Yucaipa, City of Yucaipa--San Bernardino SAA #6-2002-087 Alter the streambed to install footings for a bridge over Wilson Creek. Construction consists of two (2) through lanes in each direction, one (1) center turn lane, and two (2) five foot sidewalks. One piling will be installed in the Creek and abutments will be installed outside the channel banks. Construction of the project involves permanent impact to 85 linear feet of stream and temporary impact to 112 linear feet of stream.	NOD	
2001124004	Bridge Replacement California Army National Guard San Luis Obispo--San Luis Obispo The proposed project replaces two bridges on Camp San Luis Obispo. The first bridge, referred to as "Bridge 102", spanned Chorro Creek. The second bridge, referred to as "Bridge 106", spanned Dairy Creek. The asphalt-covered decks of Bridge 102 and Bridge 106, as well as several other bridges on Camp San Luis Obispo, were previously removed using a crane. The Bridge pilings were left standing in the streambed. Under the proposed project, the existing pilings of Bridge 102 and 106 will be removed, and each bridge replaced with a new structure in the same location that will provide vehicular access across the streams. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0240 pursuant to Section 1601 of the Fish and Game Code to the project operator, Mr. Douglas Bryceson.	NOD	
2002031117	Affordable Housing Policy Marina del Rey Los Angeles County Dept of Beaches And Harbors --Los Angeles The proposed affordable housing policy for new development in County-owned Marina del Rey is to implement the requirements of the Mello Act. The policy proposes that 10% of all new residential units built on County-owned Marina del Rey parcels be set aside for persons and families of low income for a period of 30 years. In the event that construction of the affordable units on-site on the Marina parcel is infeasible, the policy proposes construction by the County of the required affordable units off-site elsewhere in the unincorporated Coastal Zone or within three miles thereof. In the event construction of the required affordable units is	NOD

	linoleum flooring in rear restroom. Entrance will receive a portable exterior ramp to provide ADA accessibility.		
2002088239	Huer Huero Creek Bank Stabilization Fish & Game #3 --San Luis Obispo SAA R3-2002-0013 The project will entail reducing the slope downstream from the crossing. This will be accomplished by extending the current cement crossing by approximately 10 feet down stream and reducing the slope angle in the area. The banks will be stabilized by adding rip-rap to both creek banks for approximately 25 feet along the edges of the creek bed. The rip-rap will then be partially filled with soil, and native willow cuttings will be planted between the rip-rap during fall to aid in bank stabilization.	NOE	
2002088240	Dairy Creek Culverts Installation Fish & Game #3 San Luis Obispo--San Luis Obispo SAA R3-2001-0766 The proposed project would install three corrugated metal pipe (CMP) culverts at three locations along Whiskey Springs Road in the headwaters of the Dairy Creek drainage. At location 1, a 24-inch CMP culvert, 40 feet in length, would be installed in a gully at the road crossing. At location 2, a 48-inch CMP culverts, 30 feet in length, would be installed in another gully at the road crossing. At location 3, a 48-inch CMP culvert, 60 feet in length, would be installed in the headwater channel of Dairy Creek at the road crossing.	NOE	
2002088241	Huer Huero Creek Bank Revegetation Fish & Game #3 Paso Robles--San Luis Obispo SAA R3-2001-0837 All areas where the soils have been exposed from previous mature canopy and shrub removal will be replanted "in-kind" with species previously existing at the site(s). Young willow trees and a native species plan mix will be planted along the entire drainage area that fronts and runs parallel to Creston Road, across from Cardiff Stud Farm. Grassland areas will be replanted with native grasses. Sand removal from the channel will not be removed from the property, sold, or used for commercial purposes. This agreement provides for only revegetation mitigation for exposed areas created by non-permitted activities.	NOE	
2002088242	Vintana Bridges Project Fish & Game #3 Windsor--Sonoma SAA R3-2002-0530 The project will replace three bridges and a culvert that are substandard and do not have the ability to pass a 100-year flood flow. The replacement bridges will be clear span modular bridges sized to pass a 100-year flood flow. The culvert will be sized to handle a 100-year flood flow and has been designed to have the invert set one foot below the current bed elevation.	NOE	
2002088243	Mettick Creek and No Name Gulch Culvert Replacement and Sedimentation Control Fish & Game #3 Ukiah--Mendocino SAA 2002-0362 Project is to replace eight existing culverts with rolling dips and one with a larger culver, install a Hewitt ramp below an existing log jam and sediment accumulation, and to rip-rap an eroded section of channel bank.	NOE

<u>Documents Received on Friday, August 16, 2002</u>			
2002088244	Modernization at Dehesa Elementary School Dehesa School District --San Diego The project is modernization of 5 Teaching Stations at the elementary school. It includes improving 5 existing toilet rooms for accessibility, remodeling the existing computer laboratory area for more computer learning, improving lighting in 2 existing classrooms, upgrading the existing plumbing, placing new hardware on selected existing doors and computer tables in the computer laboratory.	NOE	
2002088245	Increase of Developer Fees from \$2.05 to \$2.14 Residential and from \$.33 to \$.34 Commercial Hamilton Union High School District --Glenn Increased funds for capital projects.	NOE	
2002088246	The 8th Street Storm Drain System Replacement Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Pittsburg--Contra Costa The project proposes to remove 700 linear feet of an existing concrete-lined open channel, and replace it with a combination culvert and detention pond ("meandering stream"). The upstream section (approximately 350 linear feet) of the concrete-lined channel will be culverted. The concrete will be removed from the remaining approximately 350 linear feet of channel, and the channel will be formed into a detention basin containing approximately 350 feet of meandering stream. The detention basin will be vegetated with native plant species.	NOE	
2002088247	Low-Effect Habitat Conservation Plan for Valley Elderberry Longhorn Beetle for the University of California, Davis 2001-2002 Campus Project University of California, Davis Davis--Yolo Implementing the UC Davis Low-Effect Habitat Conservation Plan (HCP) for Valley Elderberry Longhorn Beetle (VELB) will involve relocating or removing a total of 12 elderberry shrubs or clusters of shrubs from 3 areas within the UC Davis main campus. Ten shrubs/clusters will be relocated to the Russell Ranch mitigation site along Putah Creek, west of campus. Two shrubs/clusters cannot be relocated without damaging the plant and structure that the plant has wither grown under or around. All of these shrubs or clusters have stems more than 1 inch in diameter and therefore potentially support VELB, a federally-listed endangered species. No shrubs had evidence of VELB occurrence (i.e., emergence holes or adults beetles). For the two shrubs that cannot be relocated, cuttings will be taken from the shrubs for use in propagating plants for mitigation. The Habitat Conservation Plan will be used to obtain an incidental take permit from U.S. Fish and Wildlife Service to comply with the Federal Endangered Species Act.	NOE	
2002088248	Maintenance Dredging at Clipper Yacht Harbor Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Sausalito--Marin Maintenance dredging of approximately 51,000 cubic yards of sediment in the marina basin, to a project depth of -80. feet mean lower low water, with a 1-foot overdredge allowance, with disposal of the dredged sediments at the Alcatraz Dredged Material Disposal Site (SF-11) in San Francisco Bay.	NOE

1990020516	CALIFORNIA PLAZA PHASE II Sacramento, City of SACRAMENTO--SACRAMENTO The proposed California Plaza Phase II project consists of the construction of a 5 story, 162,235 square foot office building, a 255 space parking lot, and a 323 space single-level parking structure. The necessary entitlements include a Rezone from Heavy Industrial (M-2) to Office (OB), Special Permit to construct a 162,235 square foot office building, and a Variance to increase the allowable height from 35 to 78 feet.	NOP	09/18/2002
1995073066	San Jose International Airport Master Plan Update San Jose, City of San Jose--Santa Clara The site contains approximately 1,000 acres generally bounded by Airport Boulevard, I-880, Coleman Avenue, De la Cruz Boulevard, U.S. 101 and North First Street. The project consists of an update to the Norman Y. Mineta San Jose International Airport (SJC) Master Plan to allow the construction of the Off-Airport Elevated Automated People Mover (APM) which will be located between the SJC and the Santa Clara Valley Transportation Authority (VTA) Metro/Airport Light Rail Transit (LRT) Station on North First Street. The APM is intended as a mitigation measure for SJC-generated traffic and air-quality impacts by providing a non-roadway mode of access to and from the Airport for air passengers and employees. The SEIR will also contain an update to the noise analysis that was contained in the 1997 EIR.	NOP	09/18/2002

2002081089	San Diego County Administration Center Waterfront Park San Diego County San Diego--San Diego The project is a proposal for the conversion of the project site into a civic greenspace surrounding the historic CAC Building and would include the following major components: replacement of surface parking lots with public greenspace; provision of alternative parking facilities; demolition of the existing Askew Building and relocation of its occupants to other County office space; relocation of and addition to services within the CAC Building; and removal and relocation of service accessways.	NOP	09/18/2002
2002081090	Bubba Gump Shrimp Company Restaurant, 301 Santa Monica Pier Santa Monica, City of Santa Monica--Los Angeles Demolition of a two-story restaurant structure located on the Santa Monica Pier, a designated City Landmark, and the construction of a 9,019 square-foot restaurant, with two levels of outdoor dining decks, Pier level retail space, and alcoholic beverage service. The proposed building is one story at beach level and two stories above the Pier deck, that extends 35 feet in height above the Pier deck. The restaurant would include 2,018.75 square feet of indoor service and seating, 386.25 square feet of bar area, 2,511 square feet of outdoor dining patios on the beach and pier levels, a 457.25 square-foot retail area opening onto the Pier, and 3,645.75 square feet of support area including kitchen and storage on the ground floor, service area on the main floor and storage space and offices on a mezzanine level. A reduced parking permit is proposed to allow the restaurant to utilize existing Pier and beach parking lots.	NOP	09/18/2002
2002081084	Annexation of 1,200-Acres to Beaumont-Cherry Valley Water District Beaumont-Cherry Valley Water District Beaumont--Riverside The proposed project consists of actions necessary to annex approximately 1,200-acres to the Beaumont-Cherry Valley Water District. The approximate 1,200-acres proposed for annexation are within the District's current sphere of Influence. The annexation area is primarily undeveloped with relatively level terrain comprising the entire area (currently undeveloped dry farming land).	Neg	09/18/2002
2002081085	Bear Creek/Planada Well No. 7 and Water Transmission Line Planada Community Services District --Merced The proposed project includes the drilling of a water well to an estimated depth of 250 feet, installation of pump, storage tank, and water treatment facilities just north of the existing Bear Creek Housing Community. The project will also include the installation of approximately 6,600 feet of water transmission line that will extend from the Planada Community Services District just north of the intersection of State Highway 140 and Plainsburg Road to the Bear Creek Housing Community on Plainsburg Road.	Neg	09/18/2002
2002081086	Robbins Residence San Diego, City of San Diego--San Diego The proposed Coastal Development Permit, Sensitive Coastal Resource Permit, and Hillside Review Permit (CDP/SCR/HRP, Project No. 1493), to be heard by Planning Commission (Process 4), would allow the demolition of an existing single-family residence; constuction of a new 15,116-s.f., two-story, single-family	Neg	09/18/2002

2002082074	GPA 2002-05, REZ 2002-14, LL 2002-34 - American Chevrolet Stanislaus County Modesto--Stanislaus Request to change the general plan designation from Urban Transition to Planned Development and rezone from A-2-40 to Planned Development 1.66 acres to be used for expanded truck parking. The rezone request includes rezoning the existing 6.51 acres automobile dealership operation (APN: 082-06-53 and 082-06-63) to a new Planned Development recognizing the addition of 1.66 acres. A Lot Line adjustment is needed to acquire the 1.66 acre site from the adjoining 54.5 acre parcel.	CON	09/04/2002
2001121083	North City Water Reclamation System Project San Diego, City of San Diego--San Diego Expansion of recycled water distribution capabilities in the Northern Service Area is an integral part of the City's plan to meet their water reuse goals. Plans to expand transportation and distribution of recycled water from NCWTP are divided into three phases. Phase I would expand the distribution system generally north of MCAS Miramar to Black Mountain Ranch and the Olivehain Water District. Phase II would extend west from Black Mountain Road toward Carmel Valley, and Phase III would extend the system east of I-15 into Carmel Mountain. Facilities associated with Phase I are currently in the design and engineering process and there is therefore more detail available regarding the exact locations of the proposed pipeline, as well as the reservoir and pump station. Phases II and III are planned for future construction, and remain conceptual in nature. Accordingly, facilities associated with Phase I will be evaluated at a project level within the Program EIR, while facilities proposed as part of Phases II and III will be evaluated at a program level and subject to future CEQA evaluation.	EIR	10/04/2002
2002081092	West Covina Sportsplex and Associated Developments West Covina, City of West Covina--Los Angeles Development of the West Covina Sportsplex consisting of a Big League Dreams Sports Park, a commercial retail site, restaurant, and possible future development of soccer fields, a community center/gymnasium, and aquatic complex. 2002088332	Dollar Point Utility Underground Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer Conversion of overhead utilities to underground facilities. Relocated sources include Sierra Pacific Power, Charter Communications, and Pacific Bell Industries.	NOE	
2002088333	Hastings Reserve Research Trail University of California, Berkeley Berkeley--Alameda The small project will create a 4-wheel drive restrivted-use trail to connect a field research area with an extant research facility. The trail will also connect to an extant fire trail that will be lightly regraded for erosion control enhancement.	NOE	
2002088334	Oil Sand Main Roads Parks and Recreation, Department of Hollister--San Benito Purpose of project is long term solution for dust control and more effective use of equipment operator time. Watering and grading the main roads is currently done. Dust-Off is applied annually, but is a short-term solution to dust control. Project will occur exclusively on existing main gravel roads and will not affect existing habitat. Applying a 2 inch overlay of Oil Sand or asphalt would reduce to a minimum the dust generated by vehicles on the main gravel roads in the park. These main roads are on average 12 feet wide per lane. The Lower Ranch Area consists of approximately 22,400 lineal feet and the Upper Ranch Area is approximately 17,200 lineal feet of road. Total of 39,800 lineal feet of 12 foot wide road. The contractor would be responsible for traffic control while installing the product. Installation consists of grading road, spreading and compacting product. Potential impact would be additional rain run-off on these roads. The roads are curerently designed to handle the run-off without increasing erosion.	NOE	
2002088335	Lower Ranch Water Line Replacement Parks and Recreation, Department of Hollister--San Benito Purpose to increase water volume and pressure to Lodge, Bee, and Madrone Campgrounds. Project includes installatin of a new 5,000 gallon storage tank at end of Madrone Campground next to an existing sediment basin, an on-demand pump at Tank Hill by the Lower Ranch Main Water Storage Tanks, and approximately 6,700 feet of replacement water pipe.	NOE	
2002088336	Sediment Basin Clean Out Parks and Recreation, Department of Tracy--San Joaquin Several of the basins have not been maintained in several years, and are now too shallow to be effective. Ponds scheduled for excavation include Kiln, Juniper, Carrol and Tyson. Each needs to have sediment removed and the overflow structures repaired prior to the rainy season.	NOE

NOD	
2002041150	Curly Top Virus Control Program Food and Agriculture, Department of -- The proposed project represents an overall strategy by the Curly Top Virus Control Program (CTVCP) for the control of the sugar beet leafhopper (BLH) statewide where the infection of susceptible crops and backyard gardens is likely. Control is performed within rangeland habitat on both public and private lands; and along ditch banks, roadsides and fallow fields in cultivation adjacent to rangeland. Control generally consists of the application of the insecticide malathion either aerially or from ground-rigs, although biological control methods (parasites) are used in some locations. The Curly top virus (CTV) is a viral disease of sugar beets, tomatoes, melons, peppers, beans, cucumbers, squash, pumpkins, spinach, vine seed and other commercially important crops, including ornamentals. CTV not only infects commercial crops, but at times devastates backyard vegetable and flower gardens. The only known vector of CTV is circulifer tenellus (Baker), commonly known as the sugar beet leafhopper (BLH).	NOD	
2002042023	San Juan Reservoir, CIP #Z136 Sacramento, City of Sacramento--Sacramento Constructing a three million gallon water tank that will be partially buried then completely covered with soil and landscaped, booster pumps, a control building, landscaping, lights, fencing and associated piping on 2 +/- acres within the North Natomas Community Plan area on APN: 225-0180-045. 2002089061	Agreement Regarding Proposed Streambed Alteration (SAA #R5-2002-0160) to Construct a Single-Family Residence Orange County --Orange CDFG is intending to execute a Lake and Streambed Alteration Agreement (SAA #R5-2002-0160) pursuant to Section 1603 of the Fish and Game Code to the project applicant, Richard Oas. The applicant proposes to alter the streambed to construct a 9,000 square foot single-family residence on a 2.1 acre site located at 31572 Trigo Trail, within the community of Coto de Caza, Orange County. Included on the site will be a 7,000 square foot barn and a 30,000 square foot equestrian riding center. In order to construct the residence, an existing deeply incised, unvegetated streambed, approximately 300 feet long and 10 feet wide (3000 square feet), running in a northeast to southwest direction through the center of the property will be placed underground in a 48-inch RCP stormdrain and covered with fill material in order to develop the property above the stream. Running along the western edge of the property is Canada Gobernadora Creek, which converges with the above-mentioned unnamed tributary at the southwestern corner of the property. The operator proposes to place an energy dissipator (rip rap) within Canada Gobernadora Creek at the confluence of the two streams in order to minimize erosion. In addition, a Gabion retaining wall, not to exceed 20 feet in height, will be constructed upstream of the energy dissipator along the bank of Canada Gobernadora Creek for a distance of approximately 120 feet to prevent erosion of the property. All disturbed portions of Canada Gobernadora will be planted with vegetation native to the area at the conclusion of construction activities. The placement of rip rap and the construction of the retaining wall within Canada Gobernadora will result in approximately 4,350 square feet of temporary impacts to this stream. To mitigate for the temporary impacts to Canada Gobernadora Creek, the applicant will fully revegetate all impacted areas with riparian vegetation native to the area. To mitigate the permanent impacts to the unvegetated tributary, the applicant will mitigate with the off-site enhancement of a	NOD

2002081106	Pinedo Grading Plan; L14135 San Diego County Department of Planning and Land Use San Diego--San Diego The project proposes 1.8 acres of grading on a 21.88-acre site for a single-family residence, guesthouse, two pools, and detached garage, and driveway. The project proposes 4400 cubic yards of cutting and 4400 cubic yards of fill.	Neg	09/23/2002
2002081108	Manning Street Storm Drain Relocation San Diego, City of --San Diego Site Development Permit (SDP) No. 3989 for Capital Improvement Project (CIP) No. 466087 to re-route an existing 18-inch-diameter RCP storm drain to an existing unpaved access road for a length of 206 feet and relocate the storm drain outlet to the bottom of Tecolote Canyon. The project would include construction of a 43-square-foot energy dissipater at the end of the storm drain outlet. The project site is located northwest of Manning Street, within the Multi-Habitat Planning Area (MHPA), Tecolote Canyon Natural Park, and the Linda Vista Community Plan area.	Neg	09/23/2002
2002081109	City of Delano Housing Element Update Delano, City of Delano--Kern The Housing Element is a comprehensive statement by the City of Delano of its broad and specific commitments to facilitate the development of housing within the City. The Housing Element is one of the seven General Plan elements mandated by the Stat of California, as articulated in Sections 65580 to 65589.8 of the Government Code. State law requires that the Housing Element consist of "an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement and development of housing. "The residential character of the City is, to a large extent, determined by the variety of its housing and the locations and maintenance of the housing. The Housing Element is an official response to the need to provide housing for all economic segments of the population. It establishes policies that will guide City decision making, and sets forth an action plan to implement housing goals through 2007.	Neg	09/23/2002

2002081129	Lugo Elementary School Expansion Lynwood Unified School District Lynwood--Los Angeles The Lynwood Unified School District (District) proposes to expand Lugo Elementary School by 1.19 acres while increasing its enrollment from 563 to 720 students. The expansion would provide the extra space needed to facilitate the existing elementary school's attempt to replace its current portable classrooms, which were brought in initially to accommodate the over-enrollment at the school, with new permanent school buildings and other related uses. The proposed project includes site expansion that would replace the eight existing residential properties and the eastern section of Nedra Street with new hard courts and 49 new parking spaces in a surface lot located along the western edge of the site. In addition, three portable classrooms would be relocated to the western portion of the site, situated between the new hard courts and surface parking lot. Expansion activities would also include the modification of the new terminus of Nedra Street to include a gated entrance to the expanded school site. In addition to the proposed off-site improvements described above, the District also proposes on-site improvements to the Lugo Elementary School, including the replacement of existing temporary classrooms with permanent classrooms.	Neg	09/26/2002
2002081130	The Drilling, Constructing and Equipping of Well No. 40 & 41 Ontario, City of Ontario--San Bernardino The drilling and equipping of two new well pumping plants for the City of Ontario, as recommended by the City's water master plan. The construction of well caging, vertical pump, motor, pump house, electrical and telemetry equipment.	Neg	09/26/2002
2002081131	Alondra/Frailey Senior Housing Project Compton, City of Compton--Los Angeles Proposed is the construction of a three-story 59-unit multi-family housing project on a 2.24+- acre site located in the City of Compton (City). The project will or may be age restricted and, subject to availability, may receive rent or other related subsidies, concessions, and/or incentives from the United States Department of Housing and Urban Development (HUD), the Compton Redevelopment Agency, and/or the City in order to make all or a percentage of the resulting units available to lower income tenants. Discretionary actions under consideration include, but are not limited to: (1) amendment to "City of Compton General Plan Land Use Map"; (2) amendment to "City of Compton Zoning Map"; (3) issuance of a "density bonus"; (4) issuance of a variance and/or conditional use permit; (5) street/alley vacation; (6) lot consolidation; and (7) Architectural Review Board approval. 2002082100	Cottonwood Wastewater Treatment Plant Expansion Shasta County --Shasta The project would expand the capacity of the Cottonwood Wastewater Treatment Plant from 0.43 million gallons per day (MGD) to 0.86 MGD. Improvements are planned in three stages. Stage 1 would increase the size of the existing sludge lagoons and replace worn and broken equipment. Stage 2 would add a third sludge lagoon, one oxidation ditch and make most of the mechanical and infrastructure adjustments necessary for the plant to carry its full volume. Stage 3 would add a fourth sludge drying bed and complete the mechanical and infrastructure improvements. The existing outfall diffuser in Cottonwood Creek would also be replaced. The County plans the acquisition of approximately 4 acres immediately north of the project site. Approximately 0.5 acres would be used for the expansion of sludge lagoon and the remaining 3.5 acres would serve as a vegetative screen and buffer area.	Neg	09/26/2002
1998092052	Proposed Amendments to the Water Quality Control Plan for the Lahontan Region Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe -- The amendments include: * Delegation of authority to the Regional Board's Executive Officer to grant exemptions from waste discharge prohibitions to a broader group of water quality improvement projects in the Lake Tahoe and Truckee River watersheds; * Changes in the regionwide industrial waste discharge prohibition to allow industrial discharges to some surface waters under limited circumstances; * Changes to beneficial use designations of ground water in certain areas of the Searles Lake watershed (Trona Hydrologic Unit); * Miscellaneous non-regulatory clarifications and corrections of Basin Plan language. 	proposes to excavate an approximate 30-foot-wide by 12- to 15-foot-deep trench around the existing sewer pipeline that crosses beneath the creek. Once exposed, the pipe will be encased in a minimum of 4-foot-wide by 4-foot-deep concrete encasement in order to reinforce the clay pipe. To protect the pipe from potential scour of the channel, a rock concrete rip-rap cradle will be placed over the encasement; the cradle will be about 2 feet thick and extend outward and downward from the encasement at about a 1.5:1 slope to a minimum depth of about 12 feet below the channel flowline. Side slopes of the trench for the rip-rap cradle will be constructed at about 1:1 slope. This will result in about a 50-foot-wide by a minimum 12-foot-deep trench. To construct these facilities, a 20-foot-wide construction access road will be developed adjacent to the trench, as described in the submitted application. Installation of the pipe facilities will impact approximately 0.80 acre of streambed.		
2001111162	The Ontario Center, Sale of 12.79 acres of Installation of Fourth Street Storm Drain Ontario, City of Ontario--San Bernardino California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (SAA#6-2002-49) pursuant to Section 1601 of the Fish and Game Code to the project applicants, Ontario Redevelopment Agency and City of Ontario. The applicants propose to replace the open channel storm drain feature with an underground storm drain pipe to accommodate 100-year storm flows. In addition, approximately 13 acres of the site is proposed for commercial development. The proposed underground storm drain varies from an 8-foot high by 12-foot wide reinforced concrete box to a 66-inch diameter reinforced concrete pipe. The underground system will connect the upstream and downstream underground system. The project is located in the City of Ontario in San Bernardino County.	NOD	
2002012083	Glantz Conditional Use Permit - Chamise Mountain Campground CUP-98-02M Humboldt County Planning Department --Humboldt A three year extension to initiate a Conditional Use Permit approved December 7, 1998 for the development and operation of a commercial campground to be known as Chamise Mountain Campground. The campground will operate on a seasonal basis and be primarily available to group camping activities. Twelve (12) wall tents/platform tents will be developed to accommodate up to 24 persons. A 576 sf central comfort station will be developed to contain shower and restroom facilities. The applicant is also requesting a modification of permit to add component which would allow for one-day group events such as weddings, baby showers, one-day conferences to accommodate up to 150 attendees. The number of such events would be within the range of six per season (May 1 through September 30) to two per month during the season (May 1 through September 30).	NOD	
2002031021	Olivenhain Municipal Water District Recycled Water System Southeast Regional Facilities Olivenhain Municipal Water District --San Diego The proposed project is part of the District's Comprehensive Reclaimed Water Master Plan and the Non-Potable Water Distribution and Storage Planning Project to increase its use of reclaimed and non-potable water for landscape and golf-course irrigation and to reduce its dependence on imported water. 2001121058	College of the Canyons 2001 Facilities Master Plan College of the Canyons Santa Clarita--Los Angeles Due to the continuing rapid growth of the Santa Clarita Valley, student enrollment is projected to reach nearly 20,000 within the next 10 years. The 2001 Facilities Master Plan provides for new academic, athletic, support, and administrative facilities, improved pedestrian and vehicular circulation on campus, a new formal main entry and other improvements sufficient to accommodate the current and future student enrollment. As a result of the Master Plan, the square footage of facilities will increase by 51% to accommodate 17,000 to 18,000 student enrollment on campus. To accommodate the additional 2,000 to 3,000 student enrollment, the college is searching for an off-campus access site.	NOD	
2002089069	1999 Mater Plan Facilities Project - 16-Inch Parallel Pipeline Segment Fish & Game #5 --San Diego California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 of the Fish and Game Code to the project applicant, Mr. L.R. Burzell, representing Yuima Municipal Water District. The applicant proposes to alter the streambed within four unnamed drainages, tributaries to the San Luis Rey River, to accommodate the construction of the Yuima Municipal Water District 16 inch parallel pipeline segment. Project activity consists of the installation of a 16 inch diameter buried water transmission pipelinewith a total length of 8,500 feet. Installation will involve the excavation of a five foot deep, thirty inch wide trench across four drainages, emplacement of the pipe and backfilling of the trench . The pipe will be suspended on an existing bridge above a fifth drainage. The project impacts 0.10 acre of streambed.	NOD

2002082109	Calabazas Creek Trail Sunnyvale, City of Sunnyvale--Santa Clara Project provided a pre-cast steel bicycle and pedestrian bridge over Calabazas Creek and right of way fencing of an existing maintenance road to allow public access and create a recreational trail parallel to a 9000 foot long segment of Calabazas Creek from Mission College to Old Mountain View-Alviso Road. Improvements consist of bridge abutment and retaining structure construction outside of the 100 year flood plain, placement of a pre-fabricated steel bicycle/pedestrian bridge, chain link fence and gate construction to allow public access from public streets but prohibit public access to the creek channel, and sign erection. Project is within existing public agency rights of way. No new public agency rights of way or temporary or permanent easements will be acquired as part of the project, although access agreements between the City of Sunnyvale and the Santa Clara Valley Water District and the City of San Francisco Water Department will be executed to define the responsibilities for public access. Project will not require the modification or alteration of any water resource. Construction of bridge abutments and modification of an existing floodwall will require pile drilling equipment, concrete trucks, and trucks and equipment for the erection of forms. This work will take place on the top of artificial levees outside of the creek channel. Within the creek channel but outside of the live flow channel, a construction crane will be used to place a pre-fabricated steel bicycle and pedestrian bridge.	Neg	09/30/2002

2002089073	Streambed Alteration Agreement R3-2001-0900/THP 1-01-329 SCR Fish & Game #3 --Santa Cruz The applicant proposes four projects. Project #1 will reduce the amount of sediment entering Pescadero Creek and re-establish riparian vegetation by reducing the steepness of the left bank by pulling back the embankment face to 50 percent or shallower. Project #2 is to provide water for dust abatement on logging roads associated with THP 1-01-329 SCR. Project #3 is the replacement of two undersized culverts in an unnamed class II stream. Project #4 is the removal of a buried culvert and eroded road fill where an unnamed Class II is crossed by an unsurfaced seasonal road. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement R3-2001-0900, pursuant to section 1603 of the Fish and Game Code to the project applicant, James E. Greig of J.E. Greig, Inc. Consulting Forester.	NOD	
2002088318	Drip Irrigation, Landscape Lighting - Miner's Gems Parks and Recreation, Department of San Diego--San Diego Project consists of installation of a drip irrigation system and minor landscaping in the front and rear yard of La Casa de Pedrorena-Altamirano, an historic structure in Old Town San Diego SHP. Excavation for irrigation is not expected, and if needed, will be minimal, as system will be placed in 4 to 6 inches imported clean fill or into raised planter boxes at least 6 feet for any adobe. Irrigation clock will be placed under wooden box for aesthetics. Additional rock will be added to French drainage system; excavation will be no deeper than 4". Project has been redesigned to eliminate landscape lighting. An archeologist will monitor the project at all times.	NOE	
2002088497	Surface Abrade Existing PCC Caltrans #2 --Siskiyou Using federal funds Caltrans Maintenance will surface abrade existing PCC to improve ride quality. All work will be within the edge of traveled way. Approximately 100 cubic yards of PCC will be removed and disposed in a previously approved disposal site at SIS-5-59-6 (SB) the following graveled pullouts may be used for staging and parking of equipment (Postmiles).	NOE	
2002088498	Sunset North Basin Dam, No. 10-23 Water Resources, Department of, Division of Dams San Francisco--San Francisco Exploration program to refine foundation improvement treatment area.	NOE	
2002088499	Transfer of Coverage to El Dorado County APN 34-721-02 (Yochheim) Tahoe Conservancy --El Dorado The sale and transfer of 470 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE

2002088506	R4-2002-0073; Kaweali River Fish & Game #4 -- The removal and installation of a new river well on the subject property. Access to the site shall be along the floodplain of the river. The Project consists of excavating a hole approximately 14 feet deep in the dry area of the river bed. Install interlocking well tiles that are four feet in diameter and three feet high. The four tiles will be stacked on top of each other. Backfill excavation with native material. Trench and install pipe for water service. Backfill and restore area to original grade.	NOE	
2002088507	R4-2002-0088; Soda Spring Creek, Sequioa National Forest Fish & Game #4 --Tulare The project involves the modification of an existing rock waterfall into a barrier to upstream fish passage. This is part of on-going efforts to recover Little Kern golden trout, a federally-listed threatened species and state-listed special concern. Creation of the barrier will prevent upstream migration and eventual elimination of non-native trout from the tributary and restocking of pure Little Kern golden trout.	NOE	
2002088508	Stony Creek Ridge Subdivision Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Truckee--Nevada Subdivide three existing parcels into a total of six parcels with an average lot size of 4.8 acres. Each parcel will have an individual septic tank/leachfield system for domestic wastewater treatment and disposal.	NOE	
2002088510	Thermofusion, Inc. Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Alameda Nature: Amendment of Site Cleanup Requirements Purpose: To regulate the cleanup of soil and groundwater pollution Beneficiaries: People of California	NOE	
2002088511	San Tomas Aquino Creek Railroad Bridge Widening Fish & Game #3 Santa Clara--Santa Clara Widening the existing railroad bridge over San Tomas Aquino Creek. This includes expansion of two existing abutments located at the banks and a pier wall located in the channel. SAA R3-2002-0125	NOE	
2002088512	McCaw Bank Repair Fish & Game #3 --Sonoma Repair a bank failure along the Russian River on the Donald and Camilla McCaw property at 21856 Highway 116, Monte Rio. The rupture of a water main on May 11, 2002 caused severe bank erosion that severely undermined a detached garage and is threatening to undermine a home. Place rock rip-rap in a series of three horizontal lifts. The lower lift will include a keyway and will use minimum 2-ton rocks. SAA #R3-2002-0714	NOE

2002088513	Piner Creek Box Culvert Extension Fish & Game #3 Santa Rosa--Sonoma Extend the Piner Creek box culvert under Old Redwood Highway approximately 20 feet to the west and install an 18 inch storm drain outlet to Piner Creek, just upstream of Highway 101. SAA #R3-2002-0171	NOE	
2002088514	Tree Removal Fish & Game #3 San Carlos--San Mateo Removal of a blue gum eucalyptus located on the bank of Pulgas Creek. SAA #R3-2002-0665	NOE	
2002088515	California Sun-Brentwood, Deer Ridge Development Fish & Game #3 Brentwood--Contra Costa To comply with the cleanup and abatement order #R5-2002-0702. Remove sediment from Dry Creek and the areas around the creek, north of Briones Valley Road in Brentwood, Contra Costa County. Sediment from the outfall pipe, on the north side of the basin, to existing Dry Creek channel will be removed. SAA #R3-2002-0300	NOE	
2002088516	Green Valley Creek Gabion Repair Fish & Game #3 Danville--Contra Costa In order to repair the failing gabion walls on both banks of Green Valley Creek, the operator proposes to remove silt bars, install a concrete cutoff wall, and rewire and shotcrete the failing baskets. SAA #R3-2002-0569	NOE	
2002088517	Opus Channel Restoration Fish & Game #3 --Napa The old rusted culvert will be removed. Clean fill will then be used to fill the void and compacted. A new trapezoidal channel will then be excavated in lieu of the culvert. The waterway will terminate at the top of the riverbank with a loose rock check dam that includes an energy dissipater and rock apron. In order to protect the low bank bench below the rock apron, the bench will be covered with coir twine mat and blankets anchored with sprigs and live facines, as needed, to the low flow water surface. SAA #R3-2000-1349.	NOE
